Get a mosaic view of all
participants

Close the videoconference

Leave or end the meeting

More actions

Access your parameters, select your
background, record or live stream, ...

Silent zones Nobody will be able to connect with you and your camera & mic will be switched off automatically

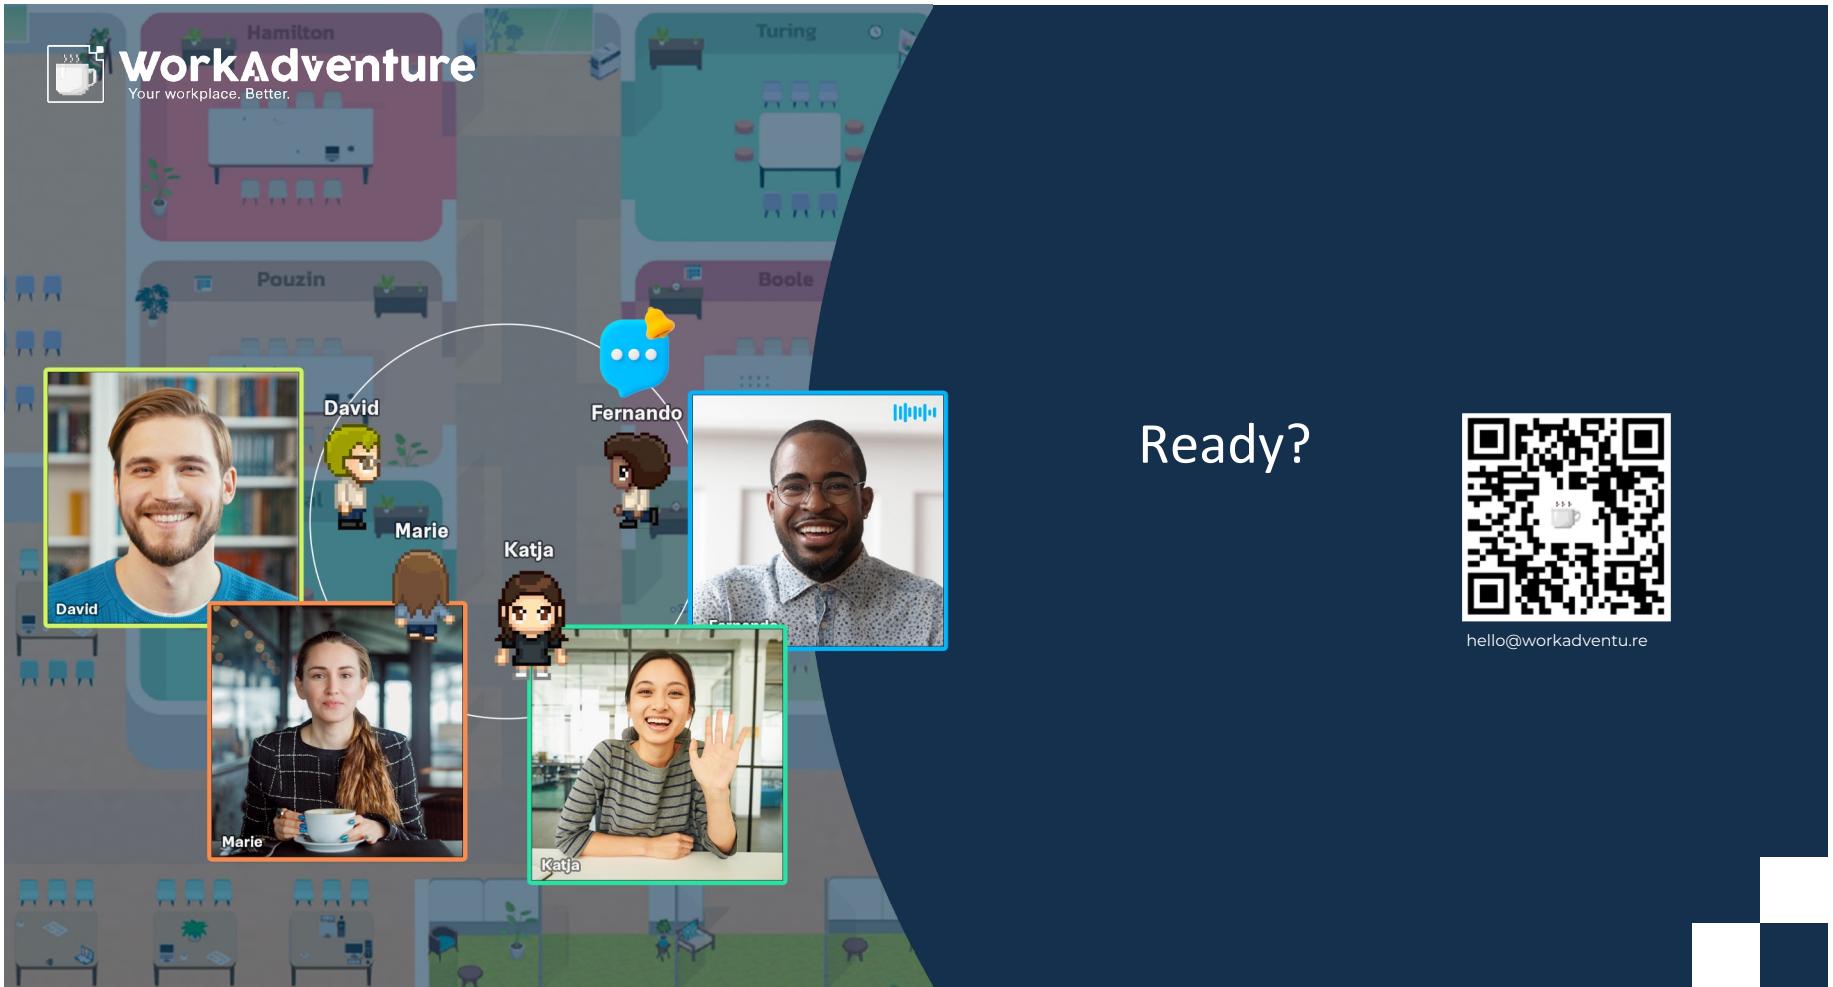

Support tips

If your camera & microphone are not working, please check directly your browser authorisation or close any other kind of video-conference app that you may have opened.

If you cannot enter a bubble zone, a conference room, an interactive zone, or if you screen freezes, please refresh your page.

If you cannot hear or see a screen sharing in a bubble zone or in a conference room, please leave the zone and enter it again.

The image shows a screenshot of the WorkAdventure platform. On the left, there's a virtual office environment with rooms labeled Hamilton, Turing, Pouzin, Boole, and a central lobby. Overlaid on this are several video call windows. One window on the left shows a man named David. Another window below it shows a woman named Marie. A third window on the right shows a man named Fernando. A fourth window at the bottom shows a woman named Katja waving. A blue speech bubble icon is positioned above the Fernando and Katja windows. The background features a dark blue gradient on the right side.

Ready?
